PROMOTES HEALTHY MUSCLE GROWTH AND MUSCLE RETENTION

NO ARTIFICIAL COLORS, SWEETENERS OR PRESERVATIVES

6709/6710 - 12 SINGLE-SERVING PACKETS

Why Choose TLS Whey Protein Shakes?

With an rBGH free formula that contains minimal carbohydrates and fat, TLS® Whey Protein is fast-absorbing, providing your muscles with everything they need and nothing they don't. As an added bonus, TLS Whey Protein is naturally sweetened with Stevia® and comes in convenient single-serving packets.

Who should use TLS Whey Protein Shakes?

Adults interested in promoting muscle strength and retention with a well-balanced, high-quality protein source, as well as those interested in boosting their overall protein intake without too many extra calories.*

What is the difference between TLS Whey Protein Shakes and TLS Nutrition Shakes?

The benefits offered by TLS Whey Protein Shakes — low fat along with fast absorption — are well-suited for use in the times surrounding exercise, while also providing an easy means to boost protein intake whenever needed.* On the other hand, TLS Nutrition Shakes, with their more balanced ratio of protein to carbohydrates, provide a quick and easy snack between meals to satisfy hunger, or can be used as meal replacement shakes in conjunction with your TLS Weight Loss Solution program.
